This year's meeting is in Lincoln at the Holiday Inn Downtown! Dr. Brian Finley and the Scientific Affairs Committee have put together an excellent program on continuing medical education topics covering many aspects of family medicine.

Participating in this workshop will allow you to complete the knowledge portion of one ABFM SAM requirement in one sitting! This year we are also excited to announce that the "Bleed and Feed" is back. It will be held on Friday morning. Please plan on taking advantage of these opportunities along with the first-rate CME sessions that will be offered!

American Academy of Family Physicians (AAFP) Board Chair, Dr. Roland Goertz, will attend our conference to install new officers and our new NAFP President, Dr. Kipton Anderson, Columbus, NE during the banquet on Friday evening.

There are many Lincoln attractions and activities available for you and your family. The Holiday Inn Downtown provides many amenities and is located in the historic Haymarket where there are shops and many restaurants. Also nearby is Memorial Stadium, the Nebraska State Capitol, Children's Museum, Lied Center for Performing Arts and the Sheldon Museum of Art.

Don't miss this opportunity to obtain CME while enjoying this time away with your family, colleagues and friends. I look forward to seeing you the end of March!

## Hiram R. Walker, MD, Lectureship

Don't miss Chris Koller, Rhode Island's Health Insurance Commissioner, who is a key player in some of the country's most innovative ways to incentivize primary care and the Patient-Centered Medical Home. Rhode Island leads the nation with its state primary care spend target and all payer Patient-Centered Medical Home project. The state of Rhode Island decided that one of the best ways to improve health and save on health care costs was to require its insurers to increase their expenditures on primary care from 5.9% of health care spending to 10.9%. Chris will discuss how this was accomplished and how it is working out in his state. He will also discuss how Rhode Island was able to bring all insurers on board with funding the Patient-Centered Medical Home.
